

The most advanced converter family for SD and HD!

Build your SDI studio with the world's most advanced and easy to use converters. Only Mini converters include auto SD/HD switching, redundant input, AES/EBU and analogue audio on standard 1/4 inch jack connections, combined with advanced 3 Gb/s SDI technology. There's 4 great models to choose from depending on the conversion you need, plus a sync generator model!

Auto Switching SD and HD

Mini Converters instantly switch between all SD and HD video formats whenever the video input changes. A huge range of video standards are supported including, NTSC, PAL, 1080i/59.94, 1080i/50, 1080PsF/23.98, 1080, 1080PsF/24, 720p/59.94, 720p/50 and new formats can be added via USB.

Redundant SDI Input

Mini Converters feature a unique redundant input for mission critical tasks. Connect a redundant cable to the second input, and if the main SDI input is lost, Mini Converters will automatically switch over in an instant. A loop-through SDI output is also provided for connecting to other devices. You can also loop to other mini converters when you need to de-embed more audio channels from the SDI connection.

Mini Converters

6 great models for all your needs!

Mini Converter SDI to Analogue includes everything you need to convert from SDI to analog in HD/SD component, NTSC and PAL video, plus balanced AES/EBU and analogue audio. Now you can easily connect equipment such as Betacam SP, VHS and analogue video monitors to SDI based equipment. **£295.00+VAT**

Mini Converter Analogue to SDI is perfect for converting from analogue video in HD/SD component, NTSC, PAL or S-Video to SDI with the choice to embed SDI audio from balanced AES/EBU or analogue audio inputs. Now you can convert analogue devices such as Betacam SP, VHS, Set top boxes and HDV cameras to SDI video. **£295.00+VAT**

Mini Converter SDI to HDMI converts from SDI to HDMI video with embedded HDMI audio, plus balanced AES/EBU or analogue. Imagine using big screen televisions and video projectors for broadcast video monitoring! Now you can easily connect HDMI displays to SDI based equipment. **£295.00+VAT**

Mini Converter HDMI to SDI is ideal for converting from HDMI devices to SDI with the choice to embed SDI audio from either the HDMI, AES/EBU or balanced analogue audio inputs. Now you can add SDI outputs to video cameras with HDMI connections, or add SDI outputs to computers with HDMI compatibility. **£295.00+VAT**

Mini Converter Sync Generator includes 6 crystal stabilized video reference outputs for referencing all the video equipment in your studio in either high definition Tri-Sync or standard definition Black Burst television standards. **£175.00+VAT**

Broadcast Converter combines most mini converters into a 1 rack unit chassis that allows bi-direction conversion. Convert SDI to analog/HDMI at the same time converting analogue/HDMI to SDI. Broadcast Converter is a complete solution for connecting analogue decks, such as Betacam SP to SDI based systems in a compact rack mount design. Broadcast converter features and specifications are different to Mini Converter models so please check www.holdan.co.uk for more information. **£575.00+VAT**

Includes AES/EBU or Analog Audio

Standard 1/4 inch jacks are built in for balanced audio that switches between AES/EBU or analogue. Unlike other converters you don't need custom audio cables, plus you can connect to either digital or analogue audio equipment with just the one converter. Connect to a wide range of equipment using commonly available cables from any pro audio store. On HDMI models, full HDMI audio is supported.

New 3 Gb/s SDI Technology

Only Mini Converters include the latest 3 Gb/s SDI technology, and upgrades can be loaded via the built in USB connection for future video format compatibility. 3 Gb/s SDI is also fully compatible with all your standard definition SDI equipment.

High Quality

Mini Converters are built to the highest quality standards with low SDI jitter, so you get the longest SDI cable lengths combined with ultra low noise broadcast quality analogue video and audio.

International Power Supply

Unlike other converters, a universal power supply is included with international socket adapters for all countries. To stop power accidentally being disconnected, a cable tie point is included to lock down the power connection tight!
